MINERAL MAKEOVER

HOW TO APPLY JORDAN ESSENTIALS MINERAL MAKEUP

Quick Tip: Start with less than you think you need - several light applications are better than a single, heavy one!

1. Apply our Tinted Moisturizer that is matched to your skin tone. Allow time for it to be well-absorbed by your skin.

2. Apply our Mineral Powder with a good, soft brush. Take our Kabuki Brush for a flawless finish. Sprinkle a bit of Mineral Powder into the lid, and swirl your brush in the powder. Cradle the lid in the palm of your hand and tap your brush in the lid until almost all the powder disappears into the bristles.

3. Brush the Mineral Powder lightly onto the skin with a downward motion. The amount on your brush will be enough to cover half your face. For more coverage, simply repeat the process, putting more foundation only on the parts of your face where you prefer more coverage. Typically you can apply up to three layers without looking too heavy.

4. Continue your Mineral Makeup application with our Eyeliner Pencil, Mineral Eyeshadow, Mineral Blush, Lip Butter Lipstick, and Intense Volume Mascara for a complete look that is all you!

Ask me for other tips and techniques to help you apply Mineral Makeup successfully! Invite your friends over for a Mineral Makeover so they can learn too! Our Hostess Bonus Buy this month includes our Limited Edition Pink Icing Mineral Eyeshadow, Eyeshadow Brush, and Popular Poppy Lip Butter all for only $10 with any $300 show.
