# SPRING cleaning

with

## ESSENTIAL OILS

### TEA TREE

**Mold and Mildew Protection:** Mix 2 teaspoons of Tea Tree Essential Oil with 2 cups of warm water, add it to a spray bottle and give it a good shake to mix.

**Add to Musty Laundry:** If your laundry smells a bit musty add 10 drops to your laundry detergent, and then wash as usual. The antibacterial oil helps freshen and remove lurking mold or mildew. Great for sheets, gym clothes, towels, and cloth diapers.

### EUCALYPTUS

**Vacuuming:** Use Eucalyptus Essential Oil as an air freshener: vacuum it up! Mix 3-4 drops with one cup of baking soda, sprinkle it on your carpets and then vacuum it up!

**Hardwood Floors:** Fill a spray bottle with hot water and add 5 drops of Eucalyptus Essential Oil. Spray and clean. For other floors, add 15 drops to a gallon of hot water and mop away!

### LAVENDER

**Laundry Helper:** Add a few drops to a wool dryer ball or a damp wash cloth and toss into the dryer instead of a dryer sheet.

### PEPPERMINT

**Toilet Bowl Cleaner:** Add 10 drops Peppermint Oil, 10 drops Tea Tree Oil, and 1 cup of water. Combine ingredients and spray the inside and surrounding area of toilets.

### ORANGE

**All Purpose Grease Cutter:** Saturate any sticky surface with Orange Essential Oil and wipe away. Also use as a degreaser for your stove top.
