

# POSTING YOUR WEB STORE LINK

Here is an advanced tip to get your web store link to work in a Facebook Post.

## 1. Go to your replicated site

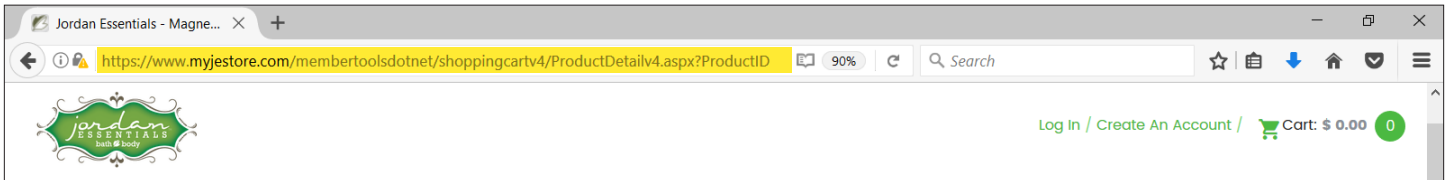

## 2. Choose a Product from the shopping cart.

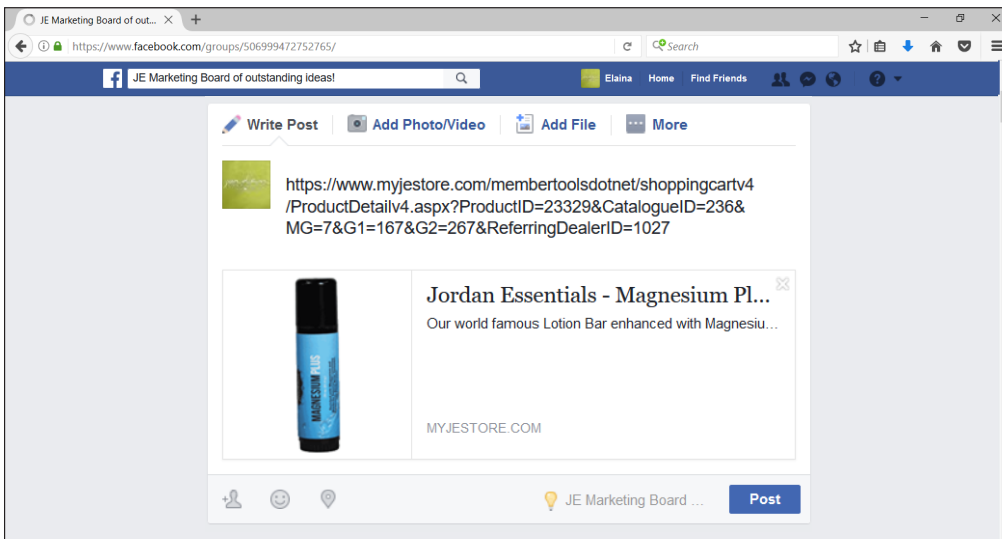

# POSTING YOUR WEB STORE LINK

3. Copy the link in the browser bar from your computer.

4. Paste the link into “Write something...” in Facebook. Your link will automatically pop up.

5. Once your picture link is in Facebook, you can type in your message and remove the link from your post. When others click on the product, it will auto link to your web page.
